AUDIT FINDINGS

Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) re-certification audit for Zephyrhills Correctional Institution, Florida Department of Corrections (FDC) in Zephyrhills, Florida was conducted on October 16-18, 2019, to determine continued compliance of the Prison Rape Elimination Act Standards. The audit was conducted by Noelda Martinez, United States Department of Justice Prison Rape Elimination Act Certified Auditor. The auditor conducted the audit through a third-party entity as a contractor and is personally accountable for complying with the DOJ certification requirements and audit findings.

The agency contract was secured through a third-party entity, PREA Auditors of America and not directly by the auditor herself. The contract described the specific work required according to the DOJ standards and PREA audit handbook to include the pre-audit, onsite audit, and post-audit. The third-party contract was signed by the auditor in 2019. The third-party contract assigns the auditors after the contract was contractor executed and identifies the lead auditors' responsibilities. The previous PREA audit was conducted on October 19-20, 2016 by Hubert L "Buddy" Kent.

The Florida Department of Corrections elected to use the Online Audit System. The FDC and the PAOA agreed to conduct this audit using the OAS, the requests for access were conducted by the FDC PREA Coordinator then forwarded the information to the auditor. The auditor received an email invitation to access the system. The OAS system provides the auditor with the pre-audit questionnaire and supporting documentation. The FDC was prepared before receiving the audit information by utilizing the Online Audit System. The auditor requested additional information required in the PREA auditor handbook. The auditor received the additional requested information within days of the request. The PAQ and additional audit information were expedited promptly allowing follow-up questions & additional documentation as needed.

Audit Methodology (Pre-Onsite Audit Phase): The auditor utilized the Online Audit System (OAS) which included the pre-audit questionnaire, and auditor compliance tool. The audit utilized the instructions for the PREA audit tour, interview protocols: agency head or designee, warden or designee, PREA compliance manager/contractor, specialized staff, random staff, and inmates. The auditor also used the PREA auditor handbook for continued guidance, audit report template, process map and checklist of documents.

The auditor contacted the Senior Warden before the audit to offer any assistance needed by the facility. The auditor established a positive working relationship with the Senior Warden and key facility staff engaging in a productive working atmosphere. The Senior Warden was receptive and ready to engage in dialogue and discussions regarding the standards. It was explained to the Warden and staff about the importance to have unfettered access to all areas of the facility, file review of personnel contractors, volunteers, and inmates to include a variety of sensitive and confidential documentation and information referencing standard 115.401 (PREA Auditor Handbook pg. 32 & 37).

The warden understood the importance of the audit process and review and with no hesitation and provided all access to the auditor. The auditor explained the 30-day interim report if corrective action was required and the 180-day corrective action timeframe if needed. The auditor explained to the warden the 45-day time frame for the submission of the final PREA report. The auditor also notified the Warden and staff of her responsibilities and expectations as an auditor and the agency's right to report any violation of the auditors' code of conduct to the PREA resource center. The auditor did not encounter any difficulties while completing any portion of the audit. The facility provided the auditor with unfettered access to areas requested by the auditor to include chemical, electrical and janitor closets.

There was no pressure during the audit or prohibited access by the facility administration during the site review, the facility administration was transparent with policies, procedures, inmate and staff interviews. The employees displayed professionalism and provided any information requested by the auditor with no hesitation. Good communication was maintained throughout the audit with the FDC PREA Coordinator, Correctional Services Consultants, Senior Warden, and PREA Compliance Manager. The auditor did not receive correspondence from inmates assigned to the facility before the audit. During the random inmate interviews, the auditor asked the inmates if they were aware of the Audit Notice with the auditors' information, and the responses were "yes". During the site review, the auditor randomly asked inmates if they could point out the auditors posted information to ensure it was made available. The information was posted for the inmate population.

The notices were posted throughout the facility to include visitation park, housing units, restrictive housing, to include large signs for inmates with disabilities. 115.11 (b). The Florida Department of Corrections (FDOC)-Bureau of Security Operations assigned PREA coordinators for developing, implementing and monitoring the Department's compliance of the PREA standards which include a PREA Coordinator and two Correctional Services Consultants. FDC assigns the Assistant Wardens with an auxiliary (PREA) staff member to provide management and oversight of the program. The agency designates an agency-wide PREA coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities. The FDC PREA Coordinator was interviewed on 5/21/19 and stated PREA management was her sole function, and she had two Correctional Services Consultants to assist in the process which allowed her full-time access to focus on PREA related duties and responsibilities. The PREA Coordinator supervises and manages about fifty-seven PREA Compliance Managers throughout the Florida Department of Corrections to include private facilities. The Warden supervises the PREA Compliance Manager (Assistant Warden of Programs) with an auxiliary PREA officer to assist the PREA Compliance Manager.

115.11 (c). The Assistant Warden is designated as the PREA Compliance Manager with one auxiliary (PREA) staff assigned to the facility. The PREA Compliance Manager was interviewed onsite and stated that enough time was provided to manage the PREA duties and responsibilities of the facility. The auditor interviewed the PREA officer regarding PREA responsibilities. The auditor interviewed the Secretary of the Florida Department of Corrections and reviewed the Organizational chart which reflected the Secretary was the head of the Department; the Warden was the head of the institution, the Agency PREA Coordinator held a position in upper management, and the Institutional PREA Manager was an Assistant Warden to include the auxiliary PREA officer.

The auditor reviewed the camera footage for unannounced rounds, cross-gender viewing, and PREA compliance.

115.13 (b). The warden's interview determined that in circumstances where the staffing plan is not complied with, the facility documents and justifies all deviations from the plan. The facility will submit a below protocol incident report and all attempts will be made to fill the position as required. If any deviations are made it would be documented via the Roster Management System and subsequently anytime the facility falls below Level 1 staffing it is documented in a report. the six most common reasons for deviating from the staffing plan in the past 12 months: Family Medical Leave; Hospital Coverage; Unscheduled Absences; AL; Academy in Progress; Military leave (information obtained from the PAQ).

115.13 (c). The PREA coordinator stated that she is consulted regarding any assessments or adjustments to the staffing plan every year. The staffing plan is submitted to the Central office at a minimum and is reassessed and reviewed with Security Operations for PREA compliance to include: the staffing plan; the deployment of monitoring technology; or the allocation of facility/agency resources to commit to the staffing plan to ensure compliance with the staffing plan.

115.13 (d). The FDC has the Officer in Charge (OIC) designated as the Captains and Lieutenants responsible for completing the unannounced rounds on day and night shift to meet the portion of the standard. The interviews with intermediate staff validated that they were conducting the required unannounced rounds and security rounds. Auditor Findings:

115.15 (a). The auditor did not conduct an interview with non-medical staff (involved in a cross-gender strip or visual searches) because the facility did not have any in the past 12 months. The auditor reviewed documentation; however, the facility did not have any cross-gender strip searches and cross-gender visual body cavity searches in the past 12 months. Logs of the cross-gender strip and/or cross-gender body cavity searches conducted in the past 12 months that were not conducted by medical staff or were not conducted during exigent circumstances, documented in the log: 0. Documentation of instances where medical staff conducted such searches: 0. The Florida Department of Corrections Procedures: 602.053, Prison Rape: Prevention, Detection, and Response; 602.018 Contraband Searches of Inmates; and, 602.036 Gender Specific Posts, all outline and direct limits to cross-gender viewing and searches.

115.15 (b). The auditor interviewed a total of 22 random staff and the interviews determined Zephyrhills Correctional Institution has received the cross-gender pat search training at least once a year. The auditor interviewed a total of 16 random male inmates and determined that strip searches are conducted in a private area with no male visibility by female staff. There were no documented incidents in the past 12 months for the cross-gender pat-down searches of female inmates of exigent circumstances. The auditor conducted a video surveillance review for pat-down searches of female inmates conducted by female staff and the auditor did not observe any cross-gender pat searches or strip searches.

115.15 (c). There were no cross-gender strip searches and cross-gender visual body cavity searches of inmates in the past 12 months. The auditor reviewed the procedures, post orders, duties and assignments, and observed operations, including pat-down searches which were conducted by male staff. The agency prohibits cross-gender strip or cross-gender visual body cavity searches, except in exigent circumstances. There have been no such searches at the Zephyrhills Correctional Institution and the information was obtained from the pre-audit documentation and interviews with staff and inmates.

115.15 (d). The auditor interviewed a total of 16 random inmates and determined that male staff announce themselves before entering the housing unit. The auditor interviewed a total of

34 inmates overall and the general answers were that they had privacy doors, walls, and privacy screens during shower use, restroom use and while changing clothes. The auditor interviewed inmates with disabilities as part of the targeted inmate interviews and determined that they had handicap showers and restrooms with privacy from cross-gender viewing. The auditor interviewed a total of 15 random staff including both male and female correctional staff and determined that the verbal announcements were made before male staff entered a housing unit for female inmates to cover up for their privacy.

115.15 (e). The auditor interviewed 22 random samples of staff and determined that they have been trained and prohibited from searching or physically examining a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. There were no inmates onsite for interviews from the transgender/intersex population. The auditor randomly interviewed staff at the facility and determined that staff are prohibited from examining transgender or intersex inmates for the sole purpose of determining the inmate's genital status. This is outlined in the policy.

115.15 (f). The auditor conducted a total of 22 random staff interviews and determined that staff has been trained on how to conduct cross-gender pat-down searches and searches of transgender and intersex inmates professionally and respectfully. The auditor reviewed a portion of staff training and acknowledgments of PREA material. 100% of the staff have been trained on how to conduct cross-gender pat-down searches in a professional a respectful manner consistent with the provisions of the standard.

115.16 (b) The FDC has established procedures to provide inmates with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Inmates may be provided effective communication aides including; qualified sign language interpreters, readers, sound amplifiers, captioned television, telecommunication devices for the deaf, digital texts, Braille materials, and large-print signs. (Note: Inmates cannot and are not utilized as interpreters and readers, except in exigent circumstances). The Department has compiled a list of staff members who can be utilized as translators and has also partnered with Language Line Services to provide translation services when needed.

Specifically for PREA education, staff may read the provided brochure (NI1-120) to blind or decreased sight inmates or may read the translated version of the brochure to an LEP inmate (Note: we have Spanish and English brochures/posters/education materials available; we also have the NI1120 brochure in 6 other languages). Closed captioning may be utilized during the PREA education video for inmates who are deaf or hard of hearing. The auditor interviewed inmates (with disabilities or who are limited English proficient): The auditor interviewed a total of nine inmates who met the criteria for disabled and limited English proficiency, falling into the category of the following: blind, deaf, hard of hearing and cognitive disabilities. The auditor interviewed one hard of hearing, a male inmate at the Zephyrhills CI. The auditor is bilingual and proficient in Sign Language, the auditor asked the hard of hearing inmate if the facility provided the information about sexual abuse and sexual harassment that they were able to understand, and the inmates said "yes". The inmates said they were able to read the information in the handbook. Inmate interpreters are not utilized for PREA related incidents.

115.16 (c). The auditor interviewed a total of 22 random samples of staff and determined that staff did not use inmate interpreters or other types of inmate's assistants to assist inmates with disabilities or inmates who were LEP when making an allegation of sexual abuse or sexual harassment. There were no inmate interpreters used in the past 12 months to assist an inmate reporting sexual abuse or sexual harassment. The auditor interviewed inmates (with disabilities or who are limited English proficient) and determined that the facility provides information about sexual abuse and sexual harassment that they were able to understand. The LEP inmates stated that several staff members serve in the role of a translator and are readily available as needed. The auditor reviewed documentation and no inmate interpreters, readers, other inmate assistants were used in the past 12 months. Inmate interpreters are not utilized for PREA related incidents.

115.17 (c) The interview with the FDC Administrative (Human Resources) Manager determined; FDC conducts a thorough background investigation that includes a complete National and State Criminal History check utilizing the FCIC and NCIC information centers. For criminal information that is returned on these checks, we complete a Criminal Record Review (CRR), as outlined in FDC Procedures 208.049 that initiates a deeper look into the applicants' criminal charges. A level 2 Background checks are conducted for all contractors entering the facilities. This consists of fingerprints and a background check using a live scan portal. The live scan system is purged if the contractor/owner of the OIR# is employed. The auditor reviewed contractor, employees and volunteer files of personnel hired in the past 12 months confirming that the agency has completed checks consistent with 115.17(c). 115.17 (h). Interview response with the FDC Administrative (Human Resources) Supervisor: When former employees reapply to work with FDC, a new background investigation is initiated which involves the completion of a "Request for Rehire," form DC2-814. The Agency Head interview response: Facility modification has always been focused on providing safety to both staff and inmates. Facilities must submit a request (via the chain of command) to the Regional Director regarding any renovation or new construction. The request must include at a minimum; description of the work, the program area of the facility the work is to be completed, what the project is correcting or improving, if permits will be required, if the work is routine or critical, the FDC building number, the size of the building, the individuals requesting the project, justification for the project, the estimated cost of the project and confirmation that the work has been reviewed to ensure PREA compliance. The review for PREA compliance includes; ensuring a proper line of sight, making sure the construction will not create blind spot areas and making certain that the construction will not inhibit an inmate's ability to benefit from all aspects of PREA. The site review and surveillance camera report</p>

determined that Zephyrhills Correctional Institution had cameras utilized to enhance inmate's protection from sexual abuse. The Sexual Abuse Incident Review team (SAIR) reviews each completed allegation of sexual abuse at the facility excluding only unfounded incidents and takes into consideration whether monitoring technology should be deployed or augmented to supplement supervision by staff. Additionally, the team examines the area where the alleged incident occurred and whether physical areas may enable abuse. The SAIR, which is headed by the PREA Manager (Assistant Warden) makes recommendations and forwards them to the Warden and reports recommendations for improvements to the PREA Coordinator, outlined 602.053, Prison Rape: Prevention, Detection, and Response.

115.18 (b) The agency head interview responses: in recent years the department has focused resources on adding and upgrading to the current video monitoring technology. Video cameras have been installed in all housing units across the state. Many facilities have cameras in food service, laundry, and other common areas. The department is continually working with the legislature to obtain funding to enhance current video monitoring technology to have all areas of every facility under surveillance. Video is utilized to monitoring technology to have all areas of every facility under surveillance. Video is utilized to monitor inmates between security checks, to allow staff to monitor multiple areas at once and to limit blind spot areas. Monitoring technology may also be utilized in identifying suspicious activity by inmates and/or staff members and may allow staff to more actively monitor inmates who are deemed aggressive or potential perpetrators/abusers. Video technology can also assist the Office of the Inspector General (OIG) with investigations and prosecutions. Another resource that the Department has employed at facilities is audio monitoring devices in dormitories. Each dorm is equipped with an intercom system that is monitored by the officer in the officer's station. This allows for officers to respond to situations such as assaults or sexual victimization when they hear the inmate call out. This system is completely operational statewide and is especially important in segregated housing dorms with two-man cells. The warden or designee interview: the objective is to eliminate sexual abuse and sexual harassment by enhancing inmate's protection from sexual abuse. The auditor checked the monitoring system and surveillance cameras during the site review. Privacy screens and barriers have been placed in every dorm/housing unit and shower area to allow privacy from the staff of the opposite gender.

115.41 (b). The interview with the Staff Responsible for Risk Screening provided the auditor with a database that maintains all the SRI/PREA assessments and 30-day reassessments verifying compliance with the standard of 72 hours of arrival to the facility. The number of inmates entering the facility (either through intake or transfer) within the past 12 months whose length of stay in the facility was for 72 hours or more and who were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility: 217. VICTIM SUPPORT SERVICES:

115.51 (b) The agency provides at least one way for inmates to report abuse or harassment to a public or private entity or office that is not part of the agency that is able to receive and immediately forward inmate reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request. FDC does not detain inmates solely for civil immigration purposes. This information is posted in the library and housing units. The Transition House of Tarpon Springs has partnered with Suncoast Center, Inc. to provide survivors of sexual abuse with emotional support services. To access these services, contact 727-530-7273 or send a letter to P.O. Box 10970, St. Petersburg, FL 33733.

115.51 (c) The auditor interviewed 22 samples of random staff interviewing determining that staff accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports. A total of 16 samples of random inmates determined that the process was in place and they could report to any staff member if needed. Inmate interviews support that they are aware they have many options for reporting sexual abuse or sexual harassment. Thirty-four inmate interviews indicated they have observed the posters in the unit over the phones and displayed in different areas that provide this information.

115.51 (d) FDC Procedure 602.053 Prison Rape: Prevention, Detection, and Response specify that a TIPS line is available for inmates and staff that would connect them to the Office of Inspector General. Forty-seven staff interviews determined that staff is aware of the TIPS line if required. Staff can report to any supervisor privately, to include the OIC, Major, Colonel, Classification Supervisor, Assistant Warden, and Warden. Employee Orientation and in-service Training.
